New Care Receivers, New Staff, New Space

Faith in Action has been experiencing tremendous growth in the number of seniors requesting services. A 61% growth in service requests has required more staff and more space. An empty suite connected to their current offices has been outfitted thanks to their talented volunteers, and the receipt of funding from the County senior referendum grant has allowed a new transportation coordinator, David Deustch, to join their team.

The expansion included the need for a donated phone system. Randy Mencil, President of RAM Solutions, and a chamber member, came to the rescue by providing the perfect system.

Rhonda Anderson, Executive Director, “Thank you McHenry County for your continued support of county seniors who receive no cost services through FIAMC, especially our wonderful volunteers who are “matched” with senior requests.
